

iSpeaker M500

All-in-One USB Omnidirectional Speakerphone

Introduction

The iSpeaker M500 is a noise-cancellation speakerphone for conference calls, designed by INFOBIT. The M500 can intelligently suppress office background noises, pickup far-field voices with phenomenal clarity, and conduct full-duplex calls within 5 meters, thanks to the audio algorithm of advancement.

With features, including the daisy-chain function supporting ample conference space, hidden ports, USB plug & play, general compatibility with all leading online conference platforms.

The iSpeaker M500 is a wise choice for conference rooms of all different scales.
